

## **Secant Healthcare to showcase Data Migration at Centricity™ Live**

**Chicago, Illinois – March 10, 2016** – Secant Healthcare has announced it will be a Bronze sponsor for GE Healthcare's largest IT event, Centricity™ Live. The 2016 IT educational conference will be held in Phoenix, Arizona, May 17-20 at the Phoenix Convention Center.

Secant Healthcare partners with GE Healthcare on many hospital network data migration projects. "We're proud of our partnership with GE Healthcare and strive to be an innovative leader in the broader healthcare IT industry," said Secant Healthcare co-founder/managing partner Marwan Baya.

In many scenarios, Secant Healthcare delivers data migration solutions for hospitals, imaging centers, and specialty physician groups. These solutions can include everything from PACS software upgrades to complete IT platform migrations due to hospital acquisition.

"Healthcare IT providers ask us to step-in for all things data migration, whether it be to assist with legacy media or HL7 integrations," said Baya. "The challenge is that many data migration companies still leave a lot of the final integration burden to the hospital or IT provider, which taxes their already stretched resources. We don't throw problems over the fence. We deliver an end-to-end solution without surprises."

As part of its growth, Secant Healthcare will introduce a new brand identity and website in parallel to Centricity™ Live – [www.secanthealthcare.com](http://www.secanthealthcare.com).

###

### **About Secant Healthcare**

Secant Healthcare is a privately held data migration company founded in 2009 and is located in Chicago, Illinois. Secant aims to diagnose, heal, recover, transform and deliver comprehensive data migration projects for healthcare networks.
