

Secant Healthcare selected to consolidate imaging exams for Mt Sinai Hospital

Chicago, Illinois – March 10, 2016 –Secant Healthcare will be migrating 5.2 million patient exams from McKesson PACS to the Mt. Sinai Hospital's GE Enterprise system for patient record management. In partnership with GE Healthcare, The New York City hospital is moving to a new patient management platform with GE Healthcare.

"When taking on a data migration effort of this magnitude, it is important that we not only migrate data from one platform to another, but that we actually improve the data accuracy as part of the process," said Secant Healthcare co-founder/managing partner Marwan Baya.

Mt. Sinai's migration to their new GE Enterprise patient record platform is expected to be completed by late 2016.

GE Healthcare and Secant Healthcare are partners in medical record migration solutions for hospitals and physician specialty groups.
